

Course	Who should attend?	Course Overview	Dates
 Reliability Engineers & Maintenance Engineers  RMIC Certification	- Reliability Engineers - Maintenance Engineers - Reliability Technicians - Reliability Managers - Operations Managers	You'll learn how to overcome chronic failures and guesswork — then apply statistics, RCM, and RCA on a coached plant project.	- Jan 19–22 - Mar 16–19 - May 11–14 - Jul 20–23 - Sep 14–17 - Nov 16–19
 Maintenance Managers  RMIC Certification	- Maintenance Managers - Maintenance Supervisors - Operations Managers	Walk out able to coach a reliability team instead of firefighting it, using the tools on a plant project with a personal coach.	- Jan 19–22 - Mar 16–19 - May 11–14 - Jul 20–23 - Sep 14–17 - Nov 16–19
 Planning and Scheduling  RMIC Certification	- Planners/Schedulers - Maintenance Supervisors	You'll learn how to break the cycle of unplanned work by installing planning and scheduling that sticks — coached on your plant project.	- Jan 19–22 - Mar 16–19 - May 11–14 - Jul 20–23 - Sep 14–17 - Nov 16–19
 Operations Management  RMIC Certification	- Operations Managers - Maintenance Managers - Reliability Managers	Get operations and maintenance pulling the same way — RCPS, 5S, Center Lining, SMED, Visual Factory, and Standard Work on a coached project.	- Jan 19–22 - Mar 16–19 - May 11–14 - Jul 20–23 - Sep 14–17 - Nov 16–19
 Storeroom & Materials Management  RMIC Certification	- Storeroom Managers - Storeroom Leads - MRO Specialists - Storeroom Attendees	You'll learn how to stop stockouts and bloated inventory with a best-practice storeroom, finished on a coached plant project.	- Mar 30–Apr 1 - Oct 19–21
CMRP Preparatory Course 	- Reliability Engineers - Maintenance or Operations Managers - Storeroom, Planners & Schedulers	Walk into the CMRP exam knowing every pillar of the SMRP Body of Knowledge — not just the acronyms.	- Feb 2–4 - May 4–6 - Aug 24–26 - Dec 7–9
CMRT Preparatory Course 	- Maintenance and Reliability Technicians - Mechanics advancing toward CMRT certification	Build the technician-level command of the SMRP CMRT Body of Knowledge you need to test with confidence.	- Mar 23–25 - Nov 30–Dec 2
Reliability Fundamentals Overview Course	Anyone seeking awareness of reliability practices	Get a clear picture of the maintenance vision and the first moves to put it to work in your plant.	Jun 8–9
Leadership for Facilities & Maintenance	- Plant, Maintenance, Reliability, Storeroom & Operations Managers - Reliability Engineers & Supervisors	You'll learn how to overcome the calendar chaos — meetings, projects, and people — that keeps facility leaders stuck.	- Apr 6–8 - Oct 5–7
Transitional Root Cause Analysis	Anyone responsible for problem-solving and process improvement	Leave with RCA tools you can put on a live problem from your facility before the week is over.	Jun 22–23
Planning & Scheduling for Maintenance Managers New for 2027	Maintenance Managers, Maintenance Supervisors, and Operations Managers who oversee planning	See planning through a manager's lens — how to sponsor the function, remove roadblocks, and hold the system accountable.	- Feb 9–10 - Oct 12–13
Maintenance Planning with AI New for 2027	Planners, Schedulers, Maintenance Managers and Reliability Engineers exploring AI in work management	Spend a day turning AI from a novelty into a planning aid you can actually use on work orders.	- Feb 11 - Jun 24 - Oct 14
